"HOUSEHOLDS IN OUR COMMUNITY ARE EXPECTED TO DOUBLE IN 10 YEARS." *-Johnson Development*

IT'S TIME... to Fulfill our Dream!

Building off our previous successful capital campaigns, which raised a total of \$5.1 million to date, our dynamic, growing and welcoming parish looks forward to a vibrant future...living out our mission to be of service to the people of God. Our mission is becoming increasingly more difficult because of our parish community's explosive growth. From our founding in 2007, our parish has grown to over **1,500 registered families**, and yet our current worship space has a **seating capacity of only 500 people**. In addition we have over 1,000 children in three classrooms, which has become inadequate. In the next 10 years, it is estimated that the number of households in our community will double, and we want to be prepared to welcome, and be of service to, the hundreds of new Catholic families who will be looking for a place to worship.

*Do something...get moving...
be confident...risk new things...
stick with it...get on your knees...
then be ready for big surprises."*

OUR PLAN

In response to our current growth as a parish, and the expected future growth in our area, parish leadership carefully examined the needs facing our faith community. This will ensure that we are keeping pace with our growing challenges. After much prayer and deliberation, we are constructing a new sanctuary and welcoming campus to better serve our faith family while advancing our mission.

St. Angela Merici Catholic community partnered with Steve Lucchesi of Ziegler Cooper + HBL, a parishioner and local architect, to create a plan that would provide a new, much larger, permanent space for worship as well as a new administrative building. The plan also calls for the current Parish Life Center to be renovated and refurbished as our Religious Education Building. These plans were presented to the Archdiocese of Galveston-Houston, who embraced our vision for the future and provided a loan for \$10 million. The exciting news is that construction will begin in September!
